

BT Connect

Bluetooth Adapter

Marine | RV | Off-Grid

The BT Connect is a Bluetooth adapter for Blue Sky Energy solar charge controllers. Paired with the free BT Connect smartphone app, it provides wireless monitoring of real-time system data and historical performance, and allows easy programming of battery charging parameters and other setpoints. The BT Connect works with all IPN-capable Blue Sky Energy products, including the SB3000i, SB3024iL/DiL, SB1524iX, SB2512iX-HV, and IPN remote displays. It can also log detailed system data to an SD card for long-term record-keeping and system analysis.

- Bluetooth dongle
- Monitoring & system setpoints
- Real-time Data with historical graphs
- Easy to install

Product Features

- Wall mounting
- Unlimited data storage on your device, up to 90 days history stored on SD card (optional)
- Mobile app for iOS device (Android coming soon)
- Monitor a single charge controller or multiple (master-followers) in a IPN Network
- Easy-to-use and intuitive app with full access to solar and battery data, battery SOC (%), net battery current, when paired with a display featuring an integrated shunt.

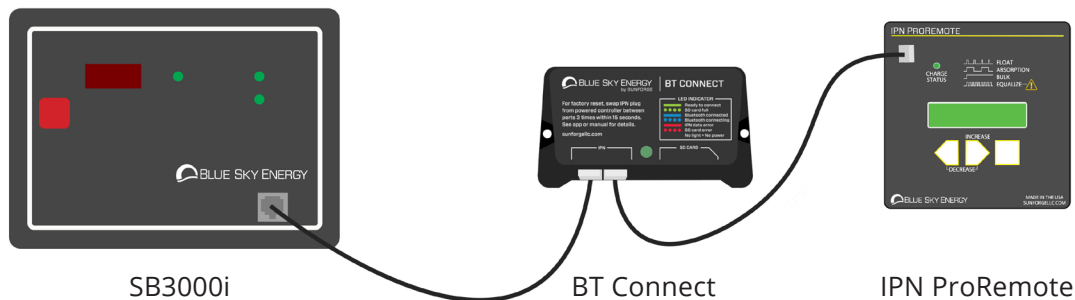

IPN Compatibility

- With SB1524iX, SB2512iX-HV, SB3024(D)iL, SB3000i, IPN proRemote, and UCM

Specifications:

BT Connect

Dimensions:	3.85 " x 2.18 " x 1.02 ", 97.8 mm x 55.3 mm x 25.8 mm
Weight:	1.4 oz, 40 g
Mounting:	#8, #6, or M4 pan-head screws, 3.48 "/88.4 mm centers
Power Consumption:	~25 mW typical
Supplied Cable:	18 ", 460 mm, RJ-11 "reversed" pinout
Data Storage:	90 days internal. Unlimited with phone or SD card
Signal Range:	100 feet (30 m)
Environmental Protection:	IP40
Operating Temperature:	-40 °C - 80 °C
Certifications:	FCC (contains FCC ID: 2AA9B10), RoHS
Warranty:	5 years
